

## StarPak Product Detail Series

Item no. 55

### Product:

VFD 5hp 230v or 460v  
3phase

- Provides control for motors up to 5 hP
- Most motors are oversized up to 30, even 50%
- You're paying for 100% of the motor output, but may only be using 70%
- VFDs reduce power use: 70% output possible using < 50% power!
- Many smart buildings already use VFDs to save on utility costs
- Reduces wear on motor, great for HVAC systems or pool pumps
